Ontario Securities Commission

AMENDMENTS TO ONTARIO SECURITIES COMMISSION RULE 48-501 *TRADING DURING DISTRIBUTIONS, FORMAL BIDS AND SHARE EXCHANGE TRANSACTIONS*

On November 02, 2015, amendments to Ontario Securities Commission Rule 48-501 *Trading during Distributions, Formal Bids and Share Exchange Transactions* (Rule 48-501) and its related Companion Policy (Companion Policy) became effective under the *Securities Act*.

Rule 48-501 sets out requirements related to the trading activities of dealers, issuers, and related persons in connection with a distribution of securities, a securities exchange take-over bid, an issuer bid or an amalgamation, arrangement, capital reorganization or similar transaction. Rule 48-501 restricts bidding and buying activities to preclude manipulative conduct by persons with an interest in the outcome of the transactions listed above.

The amendments remove the requirement that the Director designate an exchange-traded fund in order for trading in units of the fund to be exempt from the provisions of Rule 48-501. Instead, the amendments provide that trading in listed exchange-traded funds is exempt unless the Investment Industry Regulatory Organization of Canada makes a designation that trading in a particular fund is subject to similar provisions of the Universal Market Integrity Rules.

The full text of the amendments is available in the Ontario Securities Commission's Bulletin at (2015) 38 OSCB 9151 and on the Commission's website at www.osc.gov.on.ca.

(148-G545)

AMENDMENTS RELATED TO THE RECOGNITION OF AEQUITAS NEO EXCHANGE INC.

On November 17, 2015, amendments to the following rules and policies will come into force:

- National Instrument 41-101 *General Prospectus Requirements*,
- National Instrument 44-101 *Short Form Prospectus Distributions*,
- National Instrument 45-106 *Prospectus Exemptions*,
- National Instrument 51-102 *Continuous Disclosure Obligations*,
- National Instrument 52-109 *Certification of Disclosure in Issuers' Annual and Interim Filings*,
- National Instrument 52-110 *Audit Committees*,
- National Instrument 58-101 *Disclosure of Corporate Governance Practices*,
- Multilateral Instrument 61-101 *Protection of Minority Security Holders in Special Transactions*,
- National Instrument 71-102 *Continuous Disclosure and Other Exemptions Relating to Foreign Issuers*,
- National Instrument 81-101 *Mutual Fund Prospectus Disclosure*, and
- National Policy 46-201 *Escrow for Initial Public Offerings*.

The amendments are intended to address the differences in treatment of certain reporting issuers under current securities legislation that have arisen as a result of references to specific exchanges under current securities legislation and the recognition of Aequitas NEO Exchange Inc. as an exchange pursuant to section 21 of the *Securities Act* (Ontario) and the exemption from the requirement to be recognized in other jurisdictions, namely British Columbia, Alberta, Saskatchewan, Manitoba, Québec, New Brunswick, Prince Edward Island, Nova Scotia, Newfoundland and Labrador, Yukon, Northwest Territories and Nunavut.

The full text of the amendments is available in the Ontario Securities Commission's Bulletin at (2015) 38 OSCB 9327 and on the Commission's website at <http://www.osc.gov.on.ca>.

19. (1) Despite section 18, if an operator ensures that all of the measures described in subsection (2) are implemented at a worksite for an industrial operation, the fire risk category for the industrial operation shall be lowered as follows for the purposes of this Regulation:

1. An industrial operation that was categorized as a very high fire risk operation under section 18 shall be re-categorized as a moderate fire risk operation.
2. An industrial operation that was categorized as a high fire risk operation or a moderate fire risk operation under section 18, other than an industrial operation referred to in paragraph 3 shall be re-categorized as a low fire risk operation.
3. Hot work, rail production grinding and switch crossing grinding that are categorized as high fire risk operations under section 18 shall be re-categorized as moderate fire risk operations.

(2) The following are the measures that an operator must implement at a worksite for the purposes of subsection (1):

1. The worksite must be soaked with water or with a fire suppression foam mixture before the operations begin and after the operations are completed for the day and must be kept in a wet condition during operations.
2. At least one worker must be assigned to monitor the worksite while the industrial operations are being carried out to watch for sparks or other signs that a fire has been ignited and to take immediate actions to halt the spread of fire if it is safe to do so.
3. At least one worker must be employed to actively patrol the worksite for at least one hour after the operations are completed for the day and to extinguish any fires he or she may find if it is safe to do so.
4. Workers engaged in monitoring or patrolling a worksite under paragraph 2 or 3 must be equipped with telephones or other devices capable of immediate two-way communication with the local fire management headquarters and ensure that any fires that may occur are immediately reported to the Ministry.
5. Workers conducting hot work operations must put in place non-combustible screens designed and able to catch any and all material capable of producing fire ignitions.

Forest Fire Fuel Groups

20. (1) The following five forest fire fuel groups are established for the purposes of this Regulation:

1. Fuel Group 1, consisting of deciduous species and live grass-dominated stands.
2. Fuel Group 2, consisting of deciduous-dominated mixed woods (less than 35% conifer), spruce-lichen woodlands, mature red and white pine, conifer on peat or organic soil.
3. Fuel Group 3, consisting of mixed woods (between 35% to 64% conifer), mature jack-pine, self-thinned and pruned spruce.
4. Fuel Group 4, consisting of mature upland boreal spruce without conifer understory, conifer plantations and mixed wood stands (more than 64% conifer).
5. Fuel Group 5, consisting of mature upland boreal spruce with conifer understory, immature conifer, mixed wood stands with dead balsam fir, cured grass and slash-dominated sites.

(2) The operator of an industrial operation shall examine the vegetation at the operation's worksite to classify the type of vegetation as one of the five forest fire fuel groups referred to in subsection (1).

(3) In order to classify the vegetation at a worksite as a forest fire fuel group, an operator shall follow the procedures set out in Appendix C (Forest Fire Fuel Group Decision Keys) of the document entitled "Industrial Operations Protocol", dated September 20, 2015, published by the Ministry and available from the Ministry or on a website maintained by the Government of Ontario and apply any applicable modifications or adjustments to those procedures described in the document.

(4) Throughout the fire season, the operator shall carry out as many examinations and re-classifications of the vegetation at a worksite in a forest area as are necessary to account for seasonal changes and changes to the location of the worksite.

Fire intensity codes

21. (1) For the purposes of this Regulation, the following five fire intensity codes are established, each code indicating a different rate with which a fire would burn and a different level of difficulty in controlling or suppressing a fire, thus a different overall level of fire danger:

1. Fire intensity code A (Extreme fire danger).
2. Fire intensity code B (Very high fire danger).
3. Fire intensity code C (High fire danger).
4. Fire intensity code D (Moderate fire danger).
5. Fire intensity code E (Low fire danger).

(2) The Ministry shall, on a daily basis,

- (a) gather meteorological data from Ministry weather stations throughout the province and develop weather forecasts for every area to which a weather station is assigned;
- (b) based on the gathered meteorological data, determine, for each Ministry weather station, the following day's fire intensity codes applicable to every forest fire fuel group referred to in subsection 20 (1); and
- (c) prepare a fire intensity code report containing all of the fire intensity codes for the following day determined under clause (b) and make the report available to the public by,
 - (i) publishing the report on a website of the Government of Ontario, and
 - (ii) leaving the information contained in the report in a recorded telephone message at the local fire management headquarters that can be accessed by callers.

(3) For the purposes of clause (2) (b), fire intensity codes shall be determined in accordance with the process described in section 3.4 of the document entitled "Industrial Operations Protocol", dated September 20, 2015, published by the Ministry and available from the Ministry or on a website maintained by the Government of Ontario.

Daily determination of fire danger

22. (1) Every day, an operator who carries out an industrial operation in a forest area during the fire season shall,

- (a) consult the fire intensity code report for the next day once it has been made available to the public by the Ministry under clause 21 (2) (c); and
- (b) determine which of the fire intensity codes contained in the Ministry report applies to both the weather station nearest to the operation's worksite and the forest fire fuel group present at the worksite as identified by the operator under subsection 20 (2).

(2) Subsection (1) does not apply to an operator until the Ministry weather station nearest to the operation's worksite begins operations for the fire season.

(3) Subsection (1) does not apply to an operator if the operator and the industrial operation meet the following criteria:

1. The operator has installed a weather station in the area in which the operator is carrying out industrial operations that meets the standards for measuring temperature, relative humidity, precipitation and wind speed set out in the document entitled "Weather Guide for the Canadian Forest Fire Danger Rating System", dated 2008, published by Natural Resources Canada and available on a website maintained by the Government of Canada.
2. The workers at the operator's worksite carry out the following tasks each day during the fire season:
 - i. At 13:00 hours, take accurate readings or measurements of the temperature, relative humidity, wind speed and precipitation values from the weather station installed by the operator.
 - ii. Access the "Fire Weather Forecast Map" published by the Ministry on a website maintained by the Government of Ontario that sets out the next day's forecasted weather conditions.

- iii. Follow the process for determining the next day's fire intensity codes, as that process is described in section 3.4 of the document entitled "Industrial Operations Protocol", dated September 20, 2015, published by the Ministry and available from the Ministry or on a website maintained by the Government of Ontario.
- iv. Keep accurate records, for a five-year period, of the daily weather observations, forecasted weather conditions and fire intensity codes, including any fire weather indices that may be determined as part of the process for determining the fire intensity codes.

(4) The operator shall use the fire intensity code determined each day under subsection (1) or (3),

(a) as an indicator of the overall fire danger and of how a fire could behave should it ignite in a forest area; and

(b) to determine the precautions that should be applied to the next day's operations to prevent a fire from igniting in the forest area as a result of the industrial operations being carried out, including any modifications to the next day's operations that may be required under section 23.

Modifying hours of operation

23. (1) Based on the fire risk category of an industrial operation and the fire intensity code determined under section 22 for the industrial operation's worksite on any given day, the operator of the industrial operation shall ensure that the hours of operation for the next day are adjusted as required under this section.

(2) This section does not apply to an industrial operation relating to the construction or maintenance of utility corridors or railway rights of way if those operations are immediately necessary to ensure public safety or, due to exigent circumstances, to comply with the law and if the following conditions are met:

1. The operator has prepared a fire prevention and preparedness plan in accordance with section 24 that contains provisions relating to the conduct of such operations and specifies the steps to be taken to minimize the risk of fire and to monitor the site.
2. The operator is carrying out operations in accordance with the fire prevention and preparedness plan.
3. The operator reports the location of the operations and the circumstances in which they are being carried out to the local fire management headquarters.

(3) If an industrial operation that falls within a fire risk category set out in Column 1 of the Table to this subsection does not meet the requirements for a trained and capable industrial operation as described in subsection (5) and plans on a given day to carry out operations in a forest area to which a fire intensity code set out opposite in Column 2 of the Table applies for that day, then, on that day, the operator shall ensure that operations are shut down or that the hours of operation are reduced as indicated in Column 3 of the Table:

TABLE
REQUIREMENT TO SHUT DOWN OR REDUCE HOURS OF OPERATION

High risk operation	C	No operations between 12:00 and 19:00 hours local time
Moderate risk operation	A	Shut down operations
Moderate risk operation	B	No operations between 12:00 and 19:00 hours local time

(4) If an industrial operation that falls within a fire risk category set out in Column 1 of the Table to this subsection meets the requirements for a trained and capable industrial operation as described in subsection (5) and plans on a given day to carry out operations in a forest area to which a fire intensity code set out opposite in Column 2 of the Table applies for that day, then, on that day, the operator shall ensure that operations are shut down or that the hours of operation are reduced as indicated in Column 3 of the Table:

(5) For the purposes of subsections (3) and (4), an industrial operation is considered to be a trained and capable industrial operation if,

- (a) the operator has prepared a fire prevention and preparedness plan in accordance with section 24, is following the plan and has equipped the worksite with the fire suppression equipment required under section 26;
- (b) at least one person at the operation's worksite is equipped with a telephone or other device capable of immediate two-way communication with the local fire management headquarters and other workers at the worksite are capable of contacting that person at all times; and
- (c) at least 25 per cent of the persons working at the operation's worksite have received forest fire suppression training using training material prepared by the Ministry.

(6) On any day that an operator of an industrial operation is required to reduce hours under subsection (3) or (4), the operator shall ensure that at least one worker, equipped with a telephone or other device capable of immediate two-way communication with the local fire management headquarters, patrols the area in which operations were carried out for at least one hour after operations cease and extinguishes any fire that the worker finds if it is safe to do so.

(7) If an operator is required to shut down operations on any day under subsection (3) or (4), the operator shall,

- (a) shut down operations at 06:00 hours local time on the day in question;
- (b) not begin operations until the requirement to shut down operations no longer applies; and
- (c) ensure that at least one worker, equipped with a telephone or other device capable of immediate two-way communication with the local fire management headquarters, patrols the worksite for signs of fire or smoke for at least one hour after operations cease and extinguishes any fire that the worker finds if it is safe to do so.

(8) Workers engaged in patrolling and monitoring a worksite under subsection (6) or (7) must report any fires to the Ministry immediately upon discovering the fires.

Fire prevention and preparedness plan

24. (1) The operator of an industrial operation shall prepare a fire prevention and preparedness plan for the industrial operation in accordance with this section.

Environmental Assessment Act

NOTICE OF EXTENSION OF EXEMPTION ORDER MNR-62

RE: The carrying out of the Wildlife Rabies Control Program to control and seek to eliminate rabies from wildlife in Ontario, through the vaccination of wildlife species that spread the disease.

Proponents: Ministry of Natural Resources and Forestry, Ministry of Health and Long-Term Care, and Ministry of Agriculture, Food and Rural Affairs

EA File No.: NR-AA-04

EAIS No.: 15067

Condition 4 of Exemption Order MNR-62 for the above undertaking, which was published as Ontario Regulation 520/95, provides that the exemption order expires ten years from the date of the approval of the order, or on such later date as is determined by the Minister of the Environment and Energy and published in The Ontario Gazette. In 2005, the Minister of the Environment extended the exemption order's expiration date to November 29, 2015.

TAKE NOTICE that, in accordance with Condition 4, Exemption Order MNR-62 is hereby extended to November 29, 2025.

At that time, the Minister of the Environment and Climate Change may decide to further extend Exemption Order MNR-62 to a later date, in accordance with Condition 4.

All other terms and conditions remain the same.

Dated the 10 day of November, 2015 at TORONTO.

GLEN MURRAY
Minister of the Environment and
Climate Change

(148-G562)

Notice of Minister of Health and Long-Term Care

Under s. 74(7) of the *Personal Health Information Protection Act, 2004*

Under section 74(6) of the *Personal Health Information Protection Act, 2004* (PHIPA), the Minister of Health and Long-Term Care may decide that the requirements under subsection 74(1) to (5), including notice of the proposed regulation and a 60-day public consultation period, should not apply to the power of the Lieutenant Governor in Council to make a regulation under section 73 of PHIPA. The Minister is required to provide public notice of this decision and his reason for making the decision.

I have determined that the proposed regulation amendments are of a minor or technical nature and therefore the requirements outlined in subsections 74(1) to (5) of PHIPA should not apply to the power of the Lieutenant Governor in Council to make a regulation under PHIPA respecting the following matter:

Proposed amendments to Ontario Regulation 329/04 under PHIPA:

- Amend the date on which section 6.2 of Ontario Regulation 329/04 (General) under PHIPA is revoked, and make one other necessary, consequential amendment. If made, the revocation date will be changed from January 1, 2016 to January 1, 2017.
- Amend the description of the prescribed registry compiled and maintained by the Cardiac Care Network in respect of cardiac services to also include vascular services. If amended, paragraph 1 of subsection 13(1) will prescribe "Cardiac Care Network of Ontario in respect of its registry of cardiac and vascular services."

- Revoke paragraph 4 of subsection 13(1) so that the Canadian Stroke Network is no longer a prescribed registry under PHIPA.

I have determined that the regulation amendments are of a minor or technical nature, as their sole effects are to extend the revocation date of section 6.2, revise the prescribed registry description of CCN and remove the decommissioned CSN as a prescribed registry. The amendments do not affect business or introduce any new costs or financial burden to stakeholders or the Government.

I introduced the Health Information Protection Act, 2015 on September 16, 2015. If this is passed in the Legislature and proclaimed into force, it will establish privacy rules for the shared Electronic Health Record (EHR), including the authority to prescribe in regulation an organization to develop and maintain the EHR. This legislative framework would permanently replace section 6.2 of O. Reg. 329/04.

THE HONOURABLE DR. ERIC HOSKINS
Minister of Health and Long-Term Care

(148-G563E)

Avis de la ministre de la Santé et des Soins de longue durée

En vertu du par. 74(7) de la *Loi de 2004 sur la protection des renseignements personnels sur la santé*

Selon le paragraphe 74(6) de la *Loi de 2004 sur la protection des renseignements personnels sur la santé* (LPRPS), le ministre de la Santé et des Soins de longue durée peut décider que les exigences des paragraphes 74(1) à (5), y compris l'avis de règlement proposé et la période de consultation publique de 60 jours, ne devraient pas s'appliquer au pouvoir du lieutenant-gouverneur en conseil de prendre un règlement en vertu de l'article 73 de la LPRPS. Le ministre est tenu de publier un avis public de cette décision et la raison de cette décision.

J'ai déterminé que le règlement proposé est mineur ou de nature technique et qu'en conséquence les exigences énoncées dans les paragraphes 74(1) à (5) de la LPRPS ne devraient pas s'appliquer au pouvoir du lieutenant-gouverneur en conseil de prendre un règlement en vertu de la LPRPS sur le sujet suivant :

Modifications proposées au Règlement de l'Ontario 329/04 pris en vertu de la LPRPS :

- Modifier la date à laquelle l'article 6.2 du Règlement de l'Ontario 329/04 (Dispositions générales) pris en vertu de la LPRPS sera révoqué, et effectuer une autre modification nécessaire en conséquence. Si la modification est effectuée, la date de révocation ne sera plus le 1^{er} janvier 2016, mais le 1^{er} janvier 2017.
- Modifier la description du registre prescrit qui est dressé ou tenu par le Cardiac Care Network en ce qui concerne les services cardiologiques afin d'y inclure également les services vasculaires. S'il est modifié, le premier alinéa du paragraphe 13(1) sera formulé comme suit : « Cardiac Care Network of Ontario en ce qui concerne son registre de services cardiologiques et vasculaires. »
- Révoquer l'alinéa 4 du paragraphe 13 (1) pour que le Réseau canadien contre les accidents cérébrovasculaires ne figure plus comme registre prescrit en vertu de la LPRPS.

J'ai déterminé que les modifications au règlement sont mineures ou de nature technique, car leur seul effet est de repousser la date de révocation de l'article 6.2, de réviser la description du registre prescrit du Cardiac Care Network et de retirer le Réseau canadien contre les accidents cérébrovasculaires, un organisme qui n'existe plus, en tant que registre prescrit. Les modifications n'ont pas d'effet sur les activités et n'entraînent pas de nouveaux coûts ni de fardeau financier pour les parties concernées et le gouvernement.

J'ai proposé la Loi de 2015 sur la protection des renseignements sur la santé le 16 septembre 2015. Si elle est adoptée par l'Assemblée législative et proclamée en vigueur, elle établira des règles de protection des renseignements personnels pour le Dossier de santé électronique (DSE) partagé, y compris l'autorité de prescrire par règlement une organisation chargée de développer et de maintenir le DSE. Ce cadre législatif remplacerait de façon permanente l'article 6.2 du Règl. de l'Ont. 329/04.

L'HONORABLE DR ERIC HOSKINS
Ministre de la santé et des Soins de longue durée

(FINANCIAL ACTIVITIES)

1. Section 11 of Ontario Regulation 610/06 is revoked.
2. Part IV of the Regulation is revoked and the following substituted:

**PART IV
INVESTING OF MONEY****Definitions**

42. In this Part,

“investment” means an investment with respect to which this Part applies under section 43;

“Investment Board” means the City board described in subsection 46 (2).

Application

43. This Part applies only with respect to the investment, in securities, of money that the City does not require immediately.

Investment standards

44. (1) In investing money, the City must exercise the care, skill, diligence and judgment that a prudent investor would exercise in making such an investment.

(2) The City must consider the following criteria in planning investments, in addition to any other criteria that are relevant to the circumstances:

1. General economic conditions.
2. The possible effect of inflation or deflation.
3. The role that each investment or course of action plays within the City’s portfolio of investments.
4. The expected total return from income and the appreciation of capital.
5. Needs for liquidity, regularity of income and preservation or appreciation of capital.

(3) The City must diversify its investments to an extent that is appropriate to general economic and investment market conditions.

(4) The duty under subsection (1) includes a duty to obtain the advice that a prudent investor would obtain under comparable circumstances.

Limitation, school board securities

45. The City shall not invest money in a security issued or guaranteed by a school board or similar entity in Canada unless the money raised by issuing the security is to be used for school purposes.

Investments only through Investment Board

46. (1) The City may invest money only by having the Investment Board described in subsection (2) do so on its behalf.

(2) The Investment Board referred to in subsection (1) is a City board to which the City has given the control and management of investments by delegating to the board the City’s powers to make such investments and the City’s duties under section 44.

(3) The following persons may not be appointed as members of the Investment Board:

1. An officer or employee of the City.
2. A member of the Council.

(4) Subsection (3) does not apply to the treasurer.

Investment policy

47. (1) The council shall adopt and maintain an investment policy.

(2) The investment policy shall include requirements with respect to the following:

1. The City's objectives for return on investment and risk tolerance.
2. The City's need for liquidity including, for greater certainty, the City's anticipated needs for funds for planned projects and the City's needs to have funds available for unanticipated contingencies.

(3) The investment policy may include other requirements with respect to investment matters that council considers to be in the interests of the City.

(4) At least annually, the council shall review the investment policy and update it, as necessary, as a result of the review.

Investment plan

48. (1) The Investment Board shall adopt and maintain an investment plan.

(2) The investment plan shall deal with how the Investment Board will invest the City's money and set out the Board's projections of the proportions of the City's portfolio of investments to be invested at the end of the year in each type of security selected by the Investment Board and may include other requirements.

(3) At least annually, following the council's review of the investment policy under subsection 47 (4), the Investment Board shall review the investment plan and update it, as necessary, as a result of the review.

Investment report

49. (1) The Investment Board shall prepare and provide to the council, each year or more frequently as specified by the council, an investment report.

(2) The investment report shall contain,

- (a) a statement about the performance of the City's portfolio of investments during the period covered by the report;
- (b) a statement by the treasurer as to whether or not, in his or her opinion, all investments are consistent with the investment policy under section 47 and the investment plan under section 48; and
- (c) such other information that the council may require or that, in the opinion of the treasurer, should be included.

Inconsistencies, treasurer's duty

50. If an investment is, in the treasurer's opinion, not consistent with the investment policy under section 47 and the investment plan under section 48, the treasurer shall report the inconsistency to the council within 30 days after becoming aware of it.

Agents of the Investment Board

51. (1) Subject to subsections (2) and (3), the Investment Board may authorize an agent to exercise any of the Investment Board's functions to the same extent that a prudent investor, acting in accordance with ordinary investment practice, would authorize an agent to exercise any investment function.

(2) The Investment Board may not authorize an agent under subsection (1) unless a written agreement between the Investment Board and the agent is in effect and the agreement includes,

- (a) a requirement that the agent comply with the requirements included in the investment policy under section 47 and with the investment plan under section 48; and
- (b) a requirement that the agent report to the Investment Board at regular stated intervals.

(3) The Investment Board shall exercise prudence in selecting an agent, in establishing the terms of the agent's authority and in monitoring the agent's performance to ensure compliance with those terms.

(4) For the purpose of subsection (3), prudence in monitoring an agent's performance includes,

- (a) reviewing the agent's reports;
- (b) regularly reviewing the agreement between the Investment Board and the agent and how it is being put into effect, including assessing whether the requirement described in clause (2) (a) is being complied with;
- (c) considering whether directions should be provided to the agent or whether the agent's appointment should be revoked; and
- (d) providing directions to the agent or revoking the appointment if the Investment Board considers it appropriate to do so.

(5) This section does not prevent the investment, by the Investment Board, in mutual funds, pooled funds or segregated funds under variable insurance contracts and the manager of such a fund is not an agent for the purpose of this section.

Transition

52. (1) The following apply with respect to the former Part IV:

1. Reports shall be made under subsection 49 (1) of the former Part IV as though section 49 of the former Part IV continues to apply, until reports have been made covering the periods up to and including the period ending on December 31, 2017.
2. Section 50 of the former Part IV continues to apply with respect to investments made on or before December 31, 2017.
3. Reports shall be made under subsection 54 (1) of the former Part IV as though section 54 of the former Part IV continues to apply, until reports have been made covering the periods up to and including the period ending on December 31, 2017.

2. Subsection 6-1.1 (4) of Schedule 6 to the Regulation is revoked and the following substituted:

(4) If this Regulation or an approval, municipal drinking water licence or order, including an OWRA approval or OWRA order, requires at least one water sample to be taken every three months or in each calendar quarter and tested for a parameter, the owner of the drinking water system and the operating authority for the system shall ensure that at least one sample that is taken during a three-month period or calendar quarter for the purpose of being tested for that parameter is taken at least 60 days, and not more than 120 days, after a sample was taken for that purpose in the previous three-month period or calendar quarter.

3. (1) Subsection 13-6 (1) of Schedule 13 to the Regulation is amended by striking out “every three months” and substituting “in each calendar quarter”.

(2) Section 13-6 of Schedule 13 to the Regulation is amended by adding the following subsections:

(RÉSEAUX D'EAU POTABLE)

1. Le paragraphe 1 (1) du Règlement de l'Ontario 170/03 est modifié par adjonction de la définition suivante :

«trimestre civil» Relativement à une année, la période de trois mois commençant le 1^{er} janvier, le 1^{er} avril, le 1^{er} juillet ou le 1^{er} octobre. («calendar quarter»)

2. Le paragraphe 6-1.1 (4) de l'annexe 6 du Règlement est abrogé et remplacé par ce qui suit :

(4) Si le présent règlement ou une approbation, un permis municipal d'eau potable, une ordonnance ou un arrêté, y compris une approbation visée par la LREO ou un texte visé par la LREO, exige qu'au moins un échantillon d'eau soit prélevé tous les trois mois ou tous les trimestres civils et analysé en vue d'en mesurer un paramètre, le propriétaire et l'organisme d'exploitation du réseau d'eau potable veillent à ce qu'au moins un échantillon qui est prélevé au cours d'une période de trois mois ou d'un trimestre civil pour l'analyse de ce paramètre soit prélevé de 60 à 120 jours après le prélèvement d'un échantillon à cette fin au cours de la période de trois mois précédente ou du trimestre civil précédent.

3. (1) Le paragraphe 13-6 (1) de l'annexe 13 du Règlement est modifié par remplacement de «tous les trois mois» par «tous les trimestres civils».**(2) L'article 13-6 de l'annexe 13 du Règlement est modifié par adjonction des paragraphes suivants :**

(3) Pour l'application de l'annexe 2 des normes de qualité de l'eau potable de l'Ontario, la moyenne annuelle mobile des résultats trimestriels à l'égard des trihalométhanes est calculée pour chaque trimestre civil à l'aide de la formule suivante :

$$[A + B + C + D] \div 4$$

où :

«A» correspond à la moyenne de tous les résultats des échantillons analysés en application du paragraphe (2) au cours de ce trimestre civil,

«B» correspond à la moyenne de tous les résultats des échantillons analysés en application du paragraphe (2) au cours du trimestre civil qui précède immédiatement le trimestre civil visé à l'élément «A»,

«C» correspond à la moyenne de tous les résultats des échantillons analysés en application du paragraphe (2) au cours du trimestre civil qui précède immédiatement le trimestre civil visé à l'élément «B»,

«D» correspond à la moyenne de tous les résultats des échantillons analysés en application du paragraphe (2) au cours du trimestre civil qui précède immédiatement le trimestre civil visé à l'élément «C».

(4) Malgré le paragraphe (1) et sous réserve des paragraphes (5) et (6), si les conditions suivantes ont été réunies après que les échantillons ont été prélevés et analysés en application des paragraphes (1) et (2) pendant au moins 12 trimestres civils consécutifs, un réseau d'eau potable qui est un petit réseau résidentiel municipal ou un réseau résidentiel toutes saisons non municipal peut cesser de faire l'objet d'échantillonnages et d'analyses pendant huit trimestres civils consécutifs :

1. Aucun résultat d'analyse obtenu au cours des 12 trimestres civils consécutifs précédents n'a indiqué une concentration de trihalométhanes supérieure à 0,050 milligramme par litre.
2. La source d'approvisionnement en eau brute du réseau d'eau potable est la même que celle utilisée au cours des trimestres civils visés à la disposition 1.
3. Le matériel de traitement utilisé au cours des trimestres civils visés à la disposition 1 n'a subi aucune transformation pouvant faire augmenter les concentrations de trihalométhanes dans le réseau d'eau potable.
4. Le propriétaire ou l'organisme d'exploitation du réseau d'eau potable n'a pas reçu une directive écrite visée au paragraphe (6) de la part du directeur au cours des trimestres civils visés à la disposition 1.

(5) Sous réserve du paragraphe (6), un réseau d'eau potable qui est un petit réseau résidentiel municipal ou un réseau résidentiel toutes saisons non municipal visé au paragraphe (4) et qui a cessé de faire l'objet d'échantillonnages et d'analyses

pendant huit trimestres civils consécutifs doit recommencer à faire l'objet des échantillonnages et des analyses qu'exigent les paragraphes (1) et (2) pendant quatre trimestres civils consécutifs et peut continuer ainsi de cessez à en faire l'objet pendant huit trimestres civils consécutifs et de recommencer à en faire l'objet pendant quatre trimestres civils consécutifs tant que les conditions suivantes sont réunies à l'égard de la période d'échantillonnage et d'analyse :

1. Aucun résultat d'analyse obtenu au cours de la période de quatre trimestres civils consécutifs d'échantillonnage et d'analyse n'a indiqué une concentration de trihalométhanes supérieure à 0,050 milligramme par litre.
2. La source d'approvisionnement en eau brute du réseau d'eau potable est la même que celle utilisée au cours des trimestres civils visés à la disposition 1 ainsi qu'au cours des huit trimestres civils consécutifs qui précèdent la période d'échantillonnage et d'analyse.
3. Le matériel de traitement utilisé au cours des trimestres civils visés à la disposition 1 ainsi qu'au cours des huit trimestres civils consécutifs qui précèdent la période d'échantillonnage et d'analyse n'a subi aucune transformation pouvant faire augmenter les concentrations de trihalométhanes dans le réseau d'eau potable.
4. Le propriétaire ou l'organisme d'exploitation du réseau d'eau potable n'a pas reçu une directive écrite visée au paragraphe (6) de la part du directeur au cours des trimestres civils visés à la disposition 1 ni au cours des huit trimestres civils consécutifs qui précèdent la période d'échantillonnage et d'analyse.

(6) Malgré les paragraphes (4) et (5), si le directeur a connaissance de changements dans la composition chimique de l'eau du réseau d'eau potable ou de transformations du matériel de traitement et que, à son avis, ces changements ou ces transformations pourraient faire augmenter les concentrations de trihalométhanes dans le réseau, il donne au propriétaire ou à l'organisme d'exploitation du réseau une directive écrite indiquant que les exigences des paragraphes (1) et (2), prévoyant l'échantillonnage et l'analyse tous les trimestres civils, s'appliquent au réseau.

4. (1) L'annexe 13 du Règlement est modifiée par adjonction de l'article suivant :

Acides haloacétiques

13-6.1 (1) Le propriétaire et l'organisme d'exploitation d'un réseau d'eau potable qui assure la chloration ou la chloramination veillent à ce qu'au moins un échantillon de distribution soit prélevé chaque trimestre civil, à partir d'un point donné du réseau de distribution du réseau ou de son installation de plomberie qui révélera vraisemblablement une forte possibilité de formation d'acides haloacétiques.

(2) Le propriétaire et l'organisme d'exploitation du réseau d'eau potable veillent à ce que chacun des échantillons prélevés en application du paragraphe (1) soit analysé pour en mesurer la concentration d'acides haloacétiques.

(2) L'article 13-6.1 de l'annexe 13 du Règlement, tel qu'il est pris par le paragraphe (1), est modifié par adjonction des paragraphes suivants :

(3) Pour l'application de l'annexe 2 des normes de qualité de l'eau potable de l'Ontario, la moyenne annuelle mobile des résultats trimestriels à l'égard des acides haloacétiques est calculée pour chaque trimestre civil à l'aide de la formule suivante :

$$[A + B + C + D] \div 4$$

où :

- «A» correspond à la moyenne de tous les résultats des échantillons analysés en application du paragraphe (2) au cours de ce trimestre civil,
- «B» correspond à la moyenne de tous les résultats des échantillons analysés en application du paragraphe (2) au cours du trimestre civil qui précède immédiatement le trimestre civil visé à l'élément «A»,
- «C» correspond à la moyenne de tous les résultats des échantillons analysés en application du paragraphe (2) au cours du trimestre civil qui précède immédiatement le trimestre civil visé à l'élément «B»,
- «D» correspond à la moyenne de tous les résultats des échantillons analysés en application du paragraphe (2) au cours du trimestre civil qui précède immédiatement le trimestre civil visé à l'élément «C».

(4) Malgré le paragraphe (1) et sous réserve du paragraphe (5), si les conditions suivantes ont été réunies après que les échantillons ont été prélevés et analysés en application des paragraphes (1) et (2) pendant au moins 12 trimestres civils consécutifs, un réseau d'eau potable qui est un petit réseau résidentiel municipal ou un réseau résidentiel toutes saisons non municipal peut cesser de faire l'objet d'échantillonnages et d'analyses pendant huit trimestres civils consécutifs :

1. Aucun résultat d'analyse obtenu au cours des 12 trimestres civils précédents n'a indiqué une concentration d'acides haloacétiques supérieure à 0,040 milligramme par litre.
2. La source d'approvisionnement en eau brute du réseau d'eau potable est la même que celle utilisée au cours des trimestres civils visés à la disposition 1.

3. Le matériel de traitement utilisé au cours des trimestres civils visés à la disposition 1 n'a subi aucune transformation pouvant faire augmenter les concentrations de trihalométhanes dans le réseau d'eau potable.
4. Le propriétaire ou l'organisme d'exploitation du réseau d'eau potable n'a pas reçu une directive écrite visée au paragraphe (6) de la part du directeur au cours des trimestres civils visés à la disposition 1.

(5) Un réseau d'eau potable qui est un petit réseau résidentiel municipal ou un réseau résidentiel toutes saisons non municipal visé au paragraphe (4) et qui a cessé de faire l'objet d'échantillonnages et d'analyses pendant huit trimestres civils consécutifs doit recommencer à faire l'objet des échantillonnages et des analyses qu'exigent les paragraphes (1) et (2) pendant quatre trimestres civils consécutifs et peut continuer ainsi de cesser à en faire l'objet pendant huit trimestres civils consécutifs et de recommencer à en faire l'objet pendant quatre trimestres civils consécutifs tant que les conditions suivantes sont réunies à l'égard de la période d'échantillonnage et d'analyse :

1. Aucun résultat d'analyse obtenu au cours de la période de quatre trimestres civils consécutifs d'échantillonnage et d'analyse n'a indiqué une concentration d'acides haloacétiques supérieure à 0,040 milligramme par litre.
2. La source d'approvisionnement en eau brute du réseau d'eau potable est la même que celle utilisée au cours des trimestres civils visés à la disposition 1 ainsi qu'au cours des huit trimestres civils consécutifs qui précèdent la période d'échantillonnage et d'analyse.
3. Le matériel de traitement utilisé au cours des trimestres civils visés à la disposition 1 ainsi qu'au cours des huit trimestres civils consécutifs qui précèdent la période d'échantillonnage et d'analyse n'a subi aucune transformation pouvant faire augmenter les concentrations de trihalométhanes dans le réseau d'eau potable.
4. Le propriétaire ou l'organisme d'exploitation du réseau d'eau potable n'a pas reçu une directive écrite visée au paragraphe (6) de la part du directeur au cours des trimestres civils visés à la disposition 1 ni au cours des huit trimestres civils consécutifs qui précèdent la période d'échantillonnage et d'analyse.

(6) Malgré les paragraphes (4) et (5), si le directeur a connaissance de changements dans la composition chimique de l'eau du réseau d'eau potable ou de transformations du matériel de traitement et que, à son avis, ces changements ou transformations pourraient faire augmenter les concentrations d'acides haloacétiques dans le réseau, il donne au propriétaire ou à l'organisme d'exploitation du réseau une directive écrite indiquant que les exigences des paragraphes (1) et (2), prévoyant l'échantillonnage et l'analyse tous les trimestres civils, s'appliquent au réseau.

Application

1.1 (1) The application of the sections of this Regulation to the hiring of an occasional teacher is determined by the bargaining unit to which the teacher belongs, and in particular,

- (a) sections 1 to 3 apply to the hiring of all occasional teachers, subject to section 9;
- (b) sections 4 to 8 apply to the hiring of occasional teachers other than occasional teachers in bargaining units represented by OECTA, subject to section 9; and
- (c) sections 10 to 15 apply to the hiring of occasional teachers in bargaining units represented by OECTA.

(2) References in sections 4 to 15 to long-term assignments and permanent teaching positions are references to such positions that are to be filled by occasional teachers in bargaining units represented by the relevant bargaining agency.

5. Section 10 of the Regulation is revoked and the following substituted:

**PART 2
RULES RE OCCASIONAL TEACHERS REPRESENTED BY OECTA****Long-term occasional teachers list**

10. (1) Every board to which this Part applies shall establish and maintain a long-term occasional teachers list for occasional teachers in bargaining units represented by OECTA.

(2) An occasional teacher may apply to the board to be placed on the list and the board shall grant the teacher an interview if,

- (a) the teacher has been on the board’s roster of occasional teachers for at least 10 months; and
 - (b) the teacher has taught as an occasional teacher in one or more schools of the board for at least 20 full days during a 10-month period that is within the five years immediately preceding the day the application is submitted.
- (3) If the person or panel that conducts the interview recommends that the board place the teacher on the list, the board shall do so.
- (4) The board shall post the list on its website and shall ensure that the list is updated regularly.
- (5) The processes described in subsections (2) and (3) shall occur,
- (a) at least two times each year at such times as are mutually agreed to by the board and OECTA; or
 - (b) where no such agreement is made, in May and November each year.

Assignments or appointments to long-term assignments

11. (1) If a board is a party to a written agreement with a bargaining unit represented by OECTA, including a collective agreement, that governs the process of offering teaching positions to supernumerary teachers with the board or teachers whose positions with the board have been declared redundant, the board shall not interview or make an offer to any other person to fill a long-term assignment before completing that process.

(2) If a long-term assignment is not filled under the process referred to in subsection (1),

(a) section 12 applies for long-term assignments that are 30 school days or less; and

(b) section 13 applies for long-term assignments that are longer than 30 school days.

(2) The board shall offer the position to one of the five most senior qualified occasional teachers from the long-term occasional teachers list who are available for the position, and shall not interview the teacher before making the offer.

(3) If the occasional teacher who is offered the position under subsection (2) turns it down, the board shall offer the position to each of the other five teachers, one at a time, until a teacher accepts it.

(4) If fewer than five teachers satisfy the description set out in subsection (2), the board is required to offer the position only to those teachers.

(5) If the position remains unfilled after completing the process set out in subsections (2) to (4), the board shall repeat the process with the next five most senior qualified occasional teachers from the long-term occasional teachers list who are available for the position and then the next five, and so on, until a teacher accepts the position.

(6) If the position remains unfilled after completing the process set out in subsection (5), the board shall use the same process as set out in subsections (2) to (5) with the roster of occasional teachers.

(7) If the position remains unfilled after completing the process set out in subsection (6), the board shall fill the position without regard to whether or not a teacher is an occasional teacher in a bargaining unit represented by OECTA.

(8) An occasional teacher is available for the purposes of filling a long-term assignment in accordance with the steps set out in subsections (2) to (7) if the teacher has not already been assigned to another long-term assignment that overlaps with the term of the position that is being filled.

(9) The board shall provide information related to long-term assignments to occasional teachers in bargaining units represented by OECTA.

Assignment longer than 30 school days

13. (1) For a long-term assignment that is longer than 30 school days,

(a) have the required qualifications for the position;

(b) have the highest ranking under section 2; and

(c) have agreed to be interviewed.

(3) If fewer than five teachers on the list satisfy the criteria set out in clauses (2) (a) and (c), the board is required under subsection (2) to interview only those teachers.

(4) The board shall offer the position to each teacher interviewed in accordance with subsections (2) and (3), one at a time, until a teacher accepts it.

(5) If the position remains unfilled after completing the process set out in subsections (2), (3) and (4), the board shall interview a selection of the teachers from the long-term occasional teachers list who applied for the position and have the required qualifications for the position, and make an offer.

(6) If the position remains unfilled after completing the process set out in subsection (5), the board shall interview a selection of the teachers from the roster of occasional teachers who applied for the position and have the required qualifications for the position, and make an offer.

Assignments or appointments to permanent positions

14. (1) If a board is a party to a written agreement with a bargaining unit represented by OECTA, including a collective agreement, that governs the process of offering teaching positions to supernumerary teachers with the board or teachers whose positions with the board have been declared redundant, the board shall not interview or make an offer to any other person to fill a permanent position before completing that process.

- (2) If a permanent position is not filled under the process referred to in subsection (1),
 - (a) the board shall post notice of the position on the board's website; and
 - (b) after the notice has been posted for at least five weekdays, the board shall fill the position in accordance with subsections (3) to (5).
- (3) The board shall interview the five teachers from the long-term occasional teachers list who,
 - (a) have completed a long-term assignment in a school of the board that was at least four months long and in respect of which the teacher has not received an unsatisfactory evaluation;
 - (b) have the required qualifications for the position;
 - (c) have the highest ranking under section 2; and
 - (d) have agreed to be interviewed.

(4) If fewer than five teachers on the list satisfy the criteria set out in clauses (3) (a), (b) and (d), the board is required under subsection (3) to interview only those teachers.

(5) The board shall offer the position to each teacher interviewed in accordance with subsections (3) and (4) and shall not interview or make an offer to any other person to fill the position unless none of them have accepted it.

Rights of unsuccessful candidates

15. If following an interview a teacher is not placed on the long-term occasional teachers list or appointed or assigned to a long-term assignment or permanent position, the teacher is entitled, on request, to meet with the person or panel that conducted the interview to discuss,

- (a) his or her performance during the interview;
- (b) measures he or she could take to enhance his or her professional qualifications; and
- (c) other ways to improve his or her chance of being successful in a similar interview in the future.
